### LET'S WE FORGET!

Over 2,000 Democratic Precinct Election Boards, 110 Democratic County Election Boards, and a solidly Democratic State Election Board—every one the creation of Mr. Goebel or his agents—certified to the following vote cast at the primaries held in Kentucky on Tuesday, November 7th, 1909:

William S. Taylor.....193,714  
William Goebel.....191,421  
Taylor's Plurality.....2,293

The Goebel Law is the most fitting monument that GOEBEL could have.

BECKHAM is Governor of Kentucky in name only; TOM CAMPBELL and JESSE GOEBEL are "He."

"GOEBELISM" bids fair to break into the Dictionary of the future, and its definition will be anything but complimentary to those who parade under its banner.

It is said that TOM CAMPBELL and DEE ARMSTRONG are to get the bulk of that \$100,000—for discovering so many Republicans who find the fatal shot that killed GOEBEL.

The Goebel Law being the most appropriate and enduring monument to the late Mr. GOEBEL, his former friends are seeking to destroy it before building a temporary one. Strange they wouldn't leave this work of desecration for the enemies of the King.

When TOM CAMPBELL, JESSE GOEBEL and other self-appointed Ohio interlopers get through despoiling Governor MOUNT of Indiana, they may turn their attention to some of the "little editors" in Kentucky who have dared to denounce robbery as Goebelism.

JO. BLACKBURN, who slobbered over poor JOHN RANDOLPH and then slobbered over his murderer, shows signs of getting ready to slobber some more. The things that immortalized Goebel were the Goebel Law and another assassin; and now that GOEBEL is dead and BLACKBURN has been one of the beneficiaries of that law, he wants it amended. Jo. can read the signs in the stars.

An exhibition of TOM CAMPBELL's vanity and "gall" broke up a banquet at Cincinnati a few evenings since. By some hook or crook he got into an assembly of gentlemen, and was asked by a guest who had been called on for a speech to respond for him. Instead of speaking to the subject he branched off onto a eulogy of Goebelism and Campbellism, and of three hundred guests present at least two hundred left the room.

A SPECIAL from Indianapolis says Governor TAYLOR may take up his residence in Indiana and go into the insurance business. WILLIAM BOSWELL of Cincinnati, District Manager of the Provident Savings Life Insurance Company of New York, has offered him the position of Executive Manager of the Company, with headquarters in Indianapolis, at a big salary. The Governor could make a ten-strike insuring the lives of Kentucky Republicans just now, providing the Company accept the risks.

Mr. Bert Fisher of Byrd Township and Miss Margaret Elliott will marry Wednesday next at Manchester.

**MAY GET NO PAY.**  
Judge W. L. Brown is still holding Sessions of the Circuit Court at London, Ky.

London, Ky., May 31.—Judge W. L. Brown is still holding circuit court in this district notwithstanding Auditor Galt has said no court claims from this district for the state will be paid until the contest between Judges Wilson and Brown is settled by the courts.

When received 75 votes at the last November election by that number of voters passing his name on the ballots, the board of election commissioners decided he was elected, and Gov. Beckham leased him a commission, but Judge Brown refused to vacate the bench. It is believed by many that these courts being held by Brown are a nullity and that witnesses, jurors and officers will not get a cent for their several months' work.

**ANOTHER FEUD VICTIM.**  
Little Girl Shot and Fatally Wounded in the Burkhardt and Caldwell Conflict.

Mayville, Ky., May 31.—Another outbreak between the Burkhardts and the Caldwell family occurred when Tom Burkhardt, a cousin of Will Burkhardt, who was killed by Blanton a few days ago, went to the home of Kluge Caldwell and fired into his building, then a ball struck Caldwell's 3-year-old daughter in the shoulder, inflicting a wound from which she will die.

Blanton has been charged with the killing. It is believed he is being concealed at the homes of the Caldwell family, who are relatives of the Blantons. These families once waged a feud and fought desperately. It was in this feud that Washington Caldwell was killed.

## LULL IN ROTATING

Only One Man Shot in the Connection With the St. Louis Railway Strike.

### EFFORT TO RESTORE LAW AND ORDER

The Sheriff Will Call on One Thousand Men to Form a Posse to Carry Out This Purpose.

If This Is Not a Sufficient Force to Restore Peace and Quiet, An Additional Thousand Will Be Called On.

St. Louis, May 31.—All the pent-up fury of the striking employees of the St. Louis Transit Co. and their sympathizers seems to have been expended, for the violence, demonstrations and scenes of bloodshed were followed by a pronounced lull. Only one name has been added to the long casualty list, that of Anton Chupajsky, who was shot in the legs by a policeman. Chupajsky and his wife were standing at the corner of 12th and Emmet streets during the passing of a small-sized demonstration near by, and Policeman Himel told them to move. Chupajsky thought he had a right to remain if he pleased, and so informed the officer. A second officer, even, and when Chupajsky refused, he says, the officer used his baton on his head. Chupajsky and his wife then assailed the officer with a shower of bricks. One of his revolvers was thrown into the air, falling into him. Himel drew his revolver and fired twice at Chupajsky, wounding him in each leg. An ambulance conveyed Chupajsky to the city hospital, where his injuries were dressed. His condition is not serious.

Public interest in the strike veered to the special meeting of the board, called for the purpose of devising heroic measures to bring order out of the strained condition of affairs. The board met during the afternoon and at once decided to call on Sheriff Polkman to summon a posse to assist in quelling the disturbances incident to the strike. The posse, having failed in its efforts to secure \$200 extra policemen to preserve law and order. The action of the board seems to have been prompted by the riotous in the southern part of the city Tuesday, during the progress of which 11 persons received bullet wounds. Sheriff Polkman, who is in and held a conference with the commissioners. He stated he had anticipated such a call and had prepared a list of one hundred names of the leading citizens of St. Louis, on whom he will call to serve as deputies.

After the meeting President Haves of the board, said the dignity of the city and law have been required that all agencies for the preservation of law and order should be invoked to force a demand was made upon the state to assist in preserving peace and quiet. The commissioners, however, asked the sheriff to summon a posse of 1,000 men for this purpose and the sheriff had promised to secure them by Friday. The same day, processes upon the best citizens of this district for 1,000 men did not prove effective in the next few days. The commissioners were still further staid, summon another 1,000 and put down disorder in the city from whatever source it might come. If it took ten days to muster one men asked for in the first call.

### CLAIMANTS DISSATISFIED

The State Department Will Probably Accept the Delagor Arbitration Awards.

Washington, May 31.—It is probable that the state department will accept the result of the arbitration of the Delagor railroad case. The Mr. Murolo heirs, the only American claimants against the Portuguese government, are very anxious to be satisfied at the outcome of the arbitration, which reduced their allowance from about \$1,000,000 to an insignificant fraction of that sum.

Naturally they are anxious that the United States government should refuse to accept the arbitration. But the British government, representing a very much larger claim in the same arbitration, so far has shown no sign of a disposition to reject the verdict, and it is it would seem, a matter of great importance for one party to an arbitration to reject the conclusions, the United States government must accept the findings of the arbitration. In this case, though satisfied of the inadequacy of their allowance.

### Savannah Burned.

Ashland, Wis., May 31.—The town of Savannah, Wis., was destroyed by fire. A dozen cars near by also were burned, but 100,000 feet of lumber were saved. The loss is \$100,000.

### Hockey Player Recovering.

New York, May 31.—Word was received at Mr. Rockefeller's Fifth avenue residence from his country residence at Tarrytown, N. Y., that he was recovering and was progressing well toward recovery from his recent operation for appendicitis.

### One Man Killed and Two Injured.

Pittsburgh, Pa., May 31.—Antonio Giampetro was instantly killed and Rudolf Vecchiaro and Lorisio Nello probably fatally injured by the collapse of the walls of an excavation in which the three were working.

## PRETORIA TAKEN

British Enter the Transvaal Capital Meeting With No Resistance Whatever.

### THE BOERS HAD ABANDONED THE CITY

The Enemy's Forces Are Rapidly Dissolving and the War Will Probably Be Declared at an End.

Commandant Kraus Has Surrendered Johannesburg to Lord Roberts—President Kruger Is Now at Waterfall Boven.

London, May 31.—The Daily Mail publishes the following despatch from the Earl of Rosslyn, who was a prisoner at Pretoria, but who, as a civilian, appears to have been released: "Pretoria, Wednesday, May 30, 11:45 a. m.—Pretoria was occupied in about two hours without resistance. The president has gone to Waterfall Boven. Burgomaster de Souza is authorized to receive the British. He, with an influential committee of citizens, including Chief Justice Grogan, has been appointed to preserve law and property during the interregnum.

"Everything is quiet, but crowds are waiting expectantly in Church square for the arrival of the British. "Fearing a possible disturbance and bloodshed among the prisoners or war at Waterfall, United States Consul Hay and Leigh Wood insisted upon 20 officers being liberated on parole to go to the men. Their action can not be too highly praised.

"I was permitted to accompany the officers. Everything was quiet." The war office has received no news from the arrival of the British will make public, but it is assumed that the press articles are correct. Most of the London morning papers through the courtesy of the Daily Mail, print Lord Rosslyn's despatch and quote the news of the occupation as was noted. Some of the more cautious critics think that guerrilla warfare is likely to be carried on for some time in various parts of the conquered territory.

The Boer forces are dissolving. Lord Roberts apparently has not yet fully decided upon the disposal of the artillery, arms or stores. Large bodies of Boers must still be somewhere in the field. "The Boers at Waterfall Boven is 130 miles due east of Pretoria, on the Delagoa Bay railway. It should not be confused with Waterfall, ten miles north of Pretoria, where the British prisoners are. Waterfall Boven is a small place in a mountainous country. The seat of the Boer government there is known as the town of Waterfall Boven, to the north.

A despatch from Laurence Marquis, dated Wednesday, says: "Commandant Kraus has surrendered Johannesburg to Lord Roberts. By tonight's train from Pretoria arrived a few Boers, who say they were told to leave Pretoria Tuesday. They affirm that the train in which they left was shelled by the British and that half of the train was killed. The remainder streaming away. This belief, dated probably at Elandsfontein Junction. Passengers from Pretoria assert that the town is utterly demoralized. There is a mad rush for the coast. Five train loads of fugitives are expected here tonight.

By the release of the British prisoners at Waterfall a full brigade will be added to the army of Lord Roberts, there were 150 officers and 1,000 men private among them.

Events elsewhere in the field of war seem to divide in comparison. General Hunter reported the Transvaal at Marlborough Tuesday. The advance was made off the railway. Water is scarce and all the farms are deserted. Yesterday Gen. Hunter reached Geydsdorp with ten days' supplies.

Marlborough is half way between Vryburg and Mafeking. Geydsdorp is from 12 to 15 miles east. Gen. Hunter meets with no resistance.

Gen. Baden-Powell is invading Pretoria north without opposition. Commandant Symington has been released. In Northern Natal, Utrecht has surrendered to Gen. Hildyard, and Gen. Lytton is moving to Vryburg. Three different correspondents estimate the number of Boers at Laager's Nek at about 10,000.

### FINISHED THEIR WORK.

The Amalgamated Association of Iron, Steel and Tin Workers Has Adjourned.

Indianapolis, Ind., May 31.—The Amalgamated Association of Iron, Steel and Tin Workers adjourned at 2 o'clock, after voting to meet in Milwaukee, Wis., in 1901. Thomas Mann, of Newcast, Pa., was elected an assistant president to succeed Ben J. Davis, who was made manager of the Amalgamated Journal, the new official organ of the association.

The conference committee of the manufacturers will meet the wage scale committee in a few days and agree upon a new scale for the year beginning June 30, 1901.

The following officers were re-elected: President, T. J. Shaffer; secretary-treasurer, John Williams; assistant-treasurer, J. H. Fisher; and vice presidents were also elected.

## BRISTOW'S WORK

He Has Made Several Important Changes in the Postal Affairs in Cuba.

### REDUCING EXPENSES WHERE POSSIBLE

Mr. Rathbone Announces His Intention to Leave Cuba But It Is Believed He Will Be Arrested.

The Newly Printing Plant at Manzanillo, Closed By the United States Marshal—The Matter Will Be Settled in Court.

Manzanillo, May 31.—Although in consequence of the incarceration day functions the post office and the offices of the postal department were closed, Mr. Rathbone and the inspectors were hard at work until a late hour. Mr. Rathbone has placed the money and printing bureau under a chief, thus effecting a reduction of \$3,000 in expenses. The appointment bureau was also reorganized, its expenditures being reduced \$1,000. These reforms go into force Friday. On July 1 the bureau of finance will cease to exist. The salaries paid in that bureau have aggregated \$1,200,000. The work done there will hereafter be done by the bureau of stamps and supplies, with a total salary list of \$400,000.

Mr. Rathbone says the work of reorganizing and inspection reveals disorder and carelessness even greater than had been supposed. For instance, the mail of one kind respecting postal supplies for many months.

La Lucha, discussing the extravagance of Mr. Rathbone, said: "Mr. Rathbone had higher authority than his own for every cent expended, but he would to party loyalty he has kept quiet under his hand. It is likely he will submit much longer."

The general belief among Cubans, which expresses itself in the local opinion, is that G. E. Neely will be brought back to Cuba.

Mr. Rathbone has assured his friends that he intends to leave the island Saturday. If the authorities carry on their original plan, he will not be allowed to leave, but will be placed under arrest—a step which the Cubans have hitherto been unwilling to take.

Lieut. Col. Burton, inspector general of the division, Mr. Jones, the attorney specially detailed to conduct the investigation, and Auditor Kent have arrived here. Lieut. Col. Burton expects to return north almost immediately.

In honor of Decoration day the offices of the United States officials were closed. A national salute was fired at 12 o'clock. The banks of the city did not close.

### PRINTING OFFICE CLOSED.

Neely Said to Have One-third of the Newly Printing Co. Plant at Manzanillo.

Manzanillo, Ind., May 31.—The newly printing office, established and managed by Charles F. W. Neely, of the Cuban postal service, now under arrest on charges of extensive embezzlement in that department, was closed by the United States Marshal Foley, of Indianapolis, acting on a warrant of attachment issued on the petition of the government. The closure of the establishment throws 50 men out of employment.

It is alleged that Neely recently displayed the property of the United States, of Zanesville, O., and General Manager R. H. Cowan, in order to prevent confiscation by the government. The closure of the establishment, however, that Neely has a half interest in the establishment. The matter will be settled in the federal court at Indianapolis.

### DYING BY THOUSANDS.

Unprecedented Epidemic of Cholera Raging in the Famined Districts of India.

London, May 31.—The Daily Express has the following from Bombay: "An unprecedented severe epidemic of cholera has broken out in the northern districts of Bombay presidency, especially in the famine camps. The deaths have increased 40 per cent. during the last three days. In the Kaira district there have been 1,230 deaths in seven days.

In Palanpur there on the first day there were one death, on the second there were 84 and on the third there were upward of 400. The swiftness of the infection was due to the fact that the first death was near the only available water supply. The germs were thus carried all over the camp.

At Bhamburda, where there have been 87 deaths in the last seven days.

Ridpath slightly improved. New York, May 31.—There was a rumor current that John Clarke Ridpath, who for some time has been a patient in the Proskytier hospital, was dead. The physicians said that, while he is a very sick man, Mr. Ridpath is not in danger of death, and that his recovery is looked for. There has been a slight improvement in his condition within the last 24 hours.

### Thirty Lives Lost in India.

Amhedabad, India, May 31.—A portion of the embankment of the Sabarmati river, on which Amhedabad is situated, raved in while many men, women and children were bathing in the river. Thirty lives were lost.

### HAWAIIAN ADVICES.

Chief Justice of the Supreme Court Dead—Riot Among Japanese—First Step in Politics.

San Francisco, May 31.—The steamer Galle, from Hong Kong and Yokohama via Honolulu, brings the following advices from Honolulu, dated May 21:

Robert Francis Judd, chief justice of the supreme court of Hawaii, died at his residence, Nuuanu valley, on the 20th. He had been ill for several months. He was the son of Dr. and Mrs. Garratt P. Judd, who came here under the auspices of the American board of commissioners for foreign missions on the ship Puritan, arriving at Honolulu March 30, 1823. He was born in Honolulu, January 7, 1838. He graduated from Yale in 1856 as a bachelor of arts, and in the law school when he was 20 years of age. Chief Justice Judd's political career began with his appointment as attorney general of the Kingdom under King Lunalilo in 1863. He became first assistant justice February 1, 1877, and on the death of Chief Justice King became chief justice November 5, 1881.

The democrats have taken the first step for the formation of the party in the territory of Hawaii. The gathering was one that filled the hall to its capacity and numbered 300. Thirty government members and themselves sponsors in some degree for its success expressed themselves as being thoroughly pleased and gratified.

A report comes from Kona that in a riot among the Japanese employees of a plantation two men were killed and a number injured. The trouble arose over the refusal of a number of men to join in a strike for a holiday on the occasion of the wedding of the prince of the islands. The strikers went in a body to compel the workers to quit for the day, and the trouble arose, resulting as above stated. Officers of the police were sent to the scene of the trouble.

### AN EDICT TO THE "BOXERS."

Their Organization Is Prohibited By the Chinese Emperor Under Penalty of Death.

London, May 31.—A special dispatch from Shanghai says: "The Chinese government has issued an edict prohibiting the Boxers' organization under penalty of death. The edict, which was signed by the emperor, was caught in outward form and promulgated really more as an excuse than in condemnation of the movement.

The Daily Mail has received the following from Tien Tsin, dated May 30: "Heavy fighting has taken place between the imperial troops and the Boxers at Jichih-shih-tien, but the result is not known here. Railway traffic at Peking has been resumed. The foreign settlement here is sufficiently protected by the American and Japanese troops which have been landed. Consequently the excitement has subsided.

### THIS DISASTROUS CASE RECALLED.

San Francisco, May 31.—The trans-Pacific cable, with Mac, E. S. this arrived last night, 25 days from Manila. The cable had three cases of smallpox aboard, but was in quarantine, where she will remain at least a month. Gen. Sir stated it is the quarantine officials that he was in excellent health and would be in to take a train for the east as soon as possible. A quarantined steamer, a steamer, which is infected with the smallpox.
